Method: Agitation Parts Washing  
Material: Stainless Steel  
Product: Mirachem QX-490 Paint Stripper  
Key Features: Safety, Performance

*“I never imagined paint stripper could be anything but dangerous.”*

## Let Us Paint You A Different Picture

Not many people enjoy cleaning up after a paint job. Imagine what it would be like if you made the primers, paints, and coatings, and had to do it every day. Now think about finding a safer way to get the job done without putting the company in the red.

That paints a bleak picture. Unless Crystal Clean is part of your palette of partners.

Our Mirachem QX-400 Series of aqueous paint strippers are tough on paints and coatings, but easy on workers and the environment. Mix in our premium environmental and parts washer service programs, and you've got a vendor partner that will help you paint the town.

If coloring our world is what you do, don't paint yourself into a corner with hazardous paint strippers. Call Crystal Clean, and find out why safety and performance are more than just a pigment of your imagination.

*This manufacturer of paint and coatings was pleasantly surprised to find that their maintenance cleaning can be both safe and effective. Imagine that!*

### **Aqueous Advantage**

- ✓ Better Performance
- ✓ Worker Safety
- ✓ Easier EHS Compliance
- ✓ More Flexibility
